

**Relationships among  
TETRAD Institute and its  
Programs and Projects  
with Corporate Alliance  
Partners**

OASIS (collaborative internet communities)  
Seldon Engine (prediction analytics and forecasting)  
Kyberos (information securities and trading)  
Cybot robots and systems (personal, home, industry)

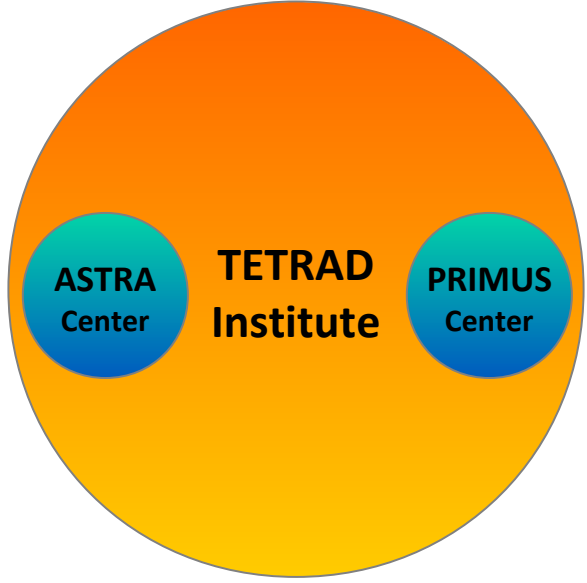

Neurology and psychology focusing on autoimmune disorders, traumatic injury and related psychological impacts:  
Education, counseling sand consultation  
Clinical diagnostic/therapeutic services  
Clinical trials  
Research

Environment and Ecology  
Nature Park eco-tourism  
Rare birds and other species  
“Eco-green” energy systems  
Entertainment and adventure  
Educational programs  
Health, fitness, wellness  
Focus: Families, Youth, Children  
Cafe, bistro, brewery, gallery  
Special tours and expeditions

Fundamental and applied research in mutually supportive and integrated areas of focus - 2 Centers, 6 Programs, 8 Projects:  
Emergent Order, Structure and Complexity in Fundamental Physics, Maths and Biology (PRIMUS Center;  
RTD and NeoPlexus Programs;  
Teranod, Cygnus and GCM Projects)  
Cybernetics, Control, and Optimization Within Intelligent Engineering (ASTRA Center; ERA Program;  
ASTRIC and Tethys Projects)  
Psychosocioeconomic Dynamics and Open Autopoietic Social Intelligence Synthesis (PSED Program; OASIS and Seldon Projects)  
Science Education and Socioeconomic Applications (Coadunatio and Librarium Programs;  
Mirnova Project)

**Organizational Structure of  
TETRAD Institute and  
Corporate Alliance Partners**

Private not-for-profit institution  
Board of Directors (Key Sponsors  
and Faculty Fellows)  
Executive Management Team  
Main activity/persons: USA, EU, RU  
[www.tdyn.org](http://www.tdyn.org)

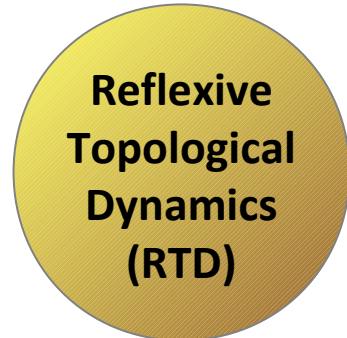

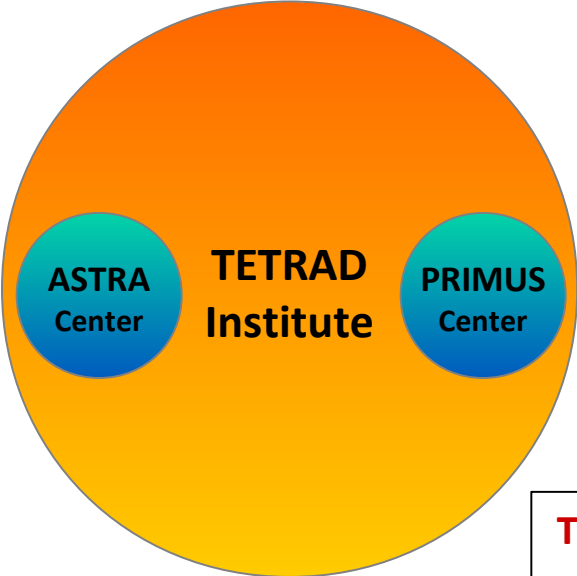

Private for-profit corporation  
Board of Directors (Key Partners)  
Executive Management Team  
Main activity/persons: USA, EU  
[www.iri.tdyn.org](http://www.iri.tdyn.org)

Private not-for-profit institution  
Board of Directors

**The (R)Evolution Programs and their Projects**  
 Six Principal Programs  
 sustained through TETRAD Institute serving  
 Renaissance and Evolution in Society

Astro-Terrestrial Remote Interaction & Control  
 Asteroid Reconnaissance Intervention & Control  
<http://astra.tdyn.org>

Fundamental complexity and  
 foundational physics.  
 Technology for energy sources  
 and power systems.  
[www.primus.tdyn.org](http://www.primus.tdyn.org)

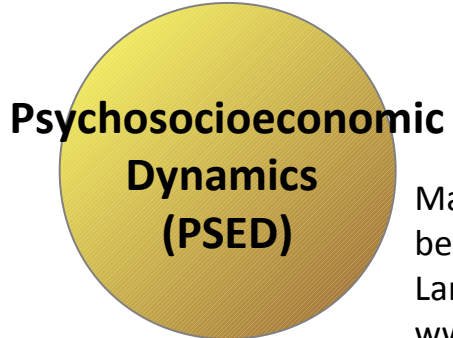

Seminars, workshops,  
 and conferences focused upon  
 the primary themes of the  
 Institute Programs and Projects  
[Http://coadunatio.tdyn.org](http://coadunatio.tdyn.org)  
<http://seminars.tdyn.org>

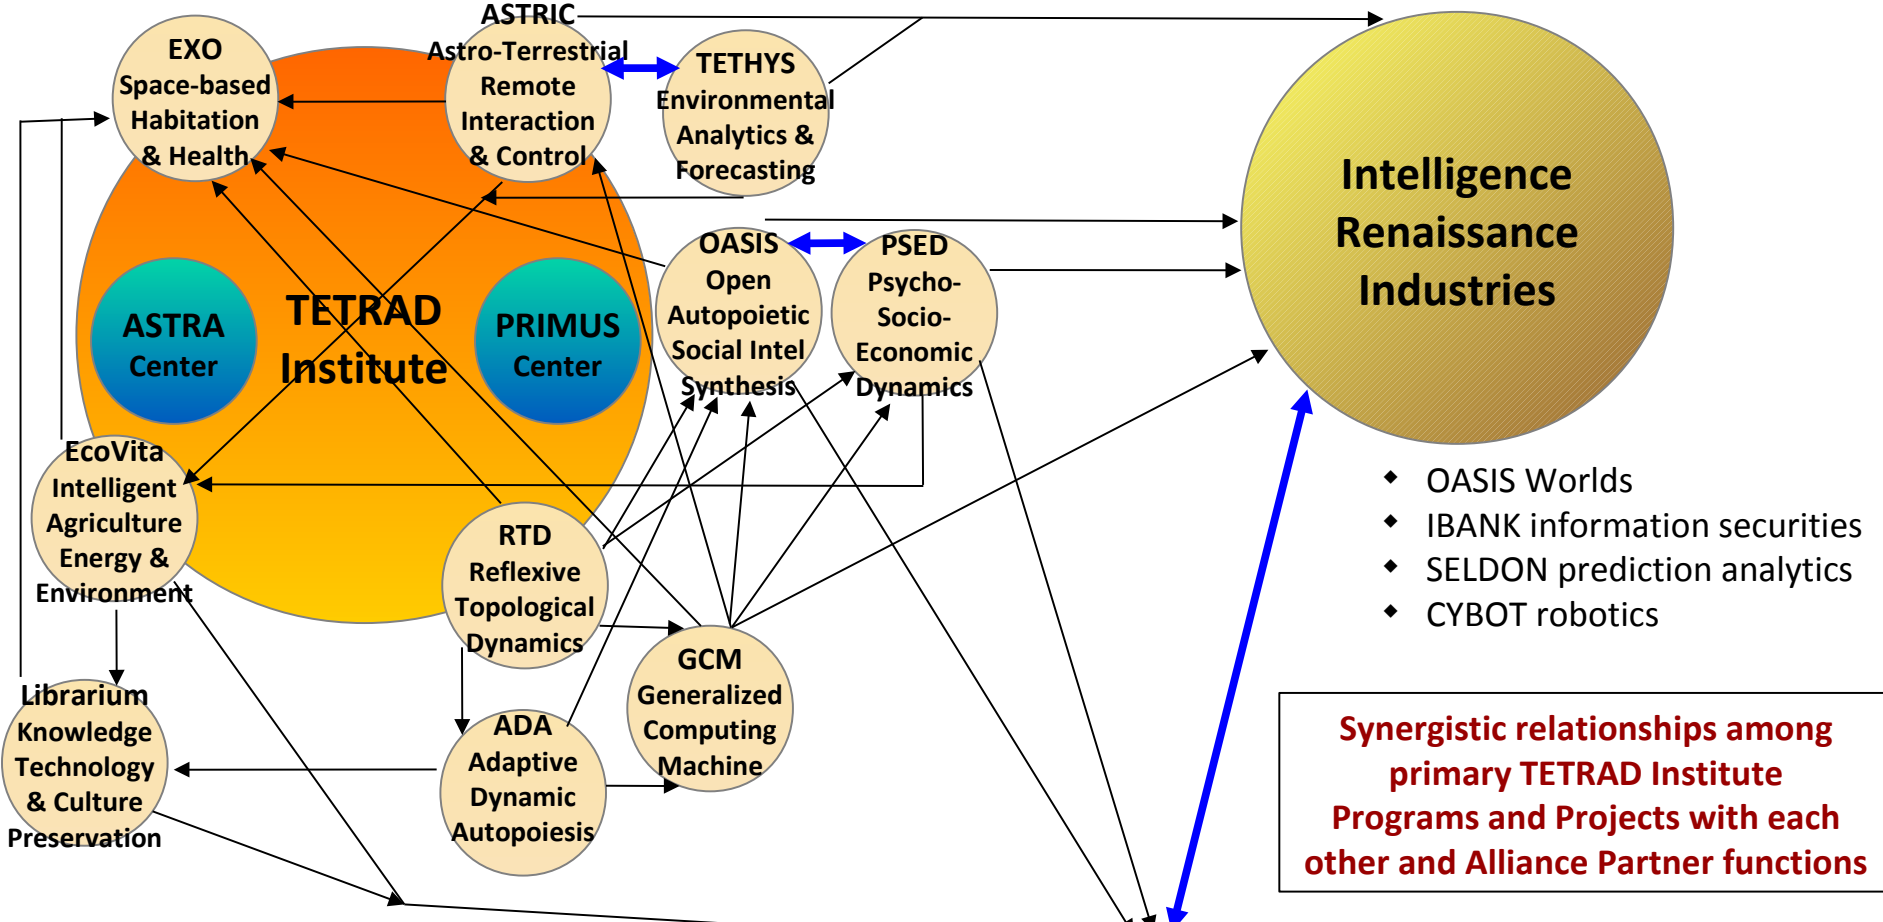

Quantum-potential based  
 computing with topological  
 information resonance.  
 Heterogeneous non-Turing neuro-  
 connectome architecture.  
[www.neoplexus.tdyn.org](http://www.neoplexus.tdyn.org)

Library, resources and tools for  
 Futures-oriented Preservation,  
 Innovation, Conservation, and  
 Sustenance of scientific, technical, arts  
 & humanities knowledge & skills.  
<http://librarium.tdyn.org>

Mass-population disposition, trend and  
 behavior prediction.  
 Large-scale probabilistic event forecasting.  
[www.oasis.tdyn.org](http://www.oasis.tdyn.org)

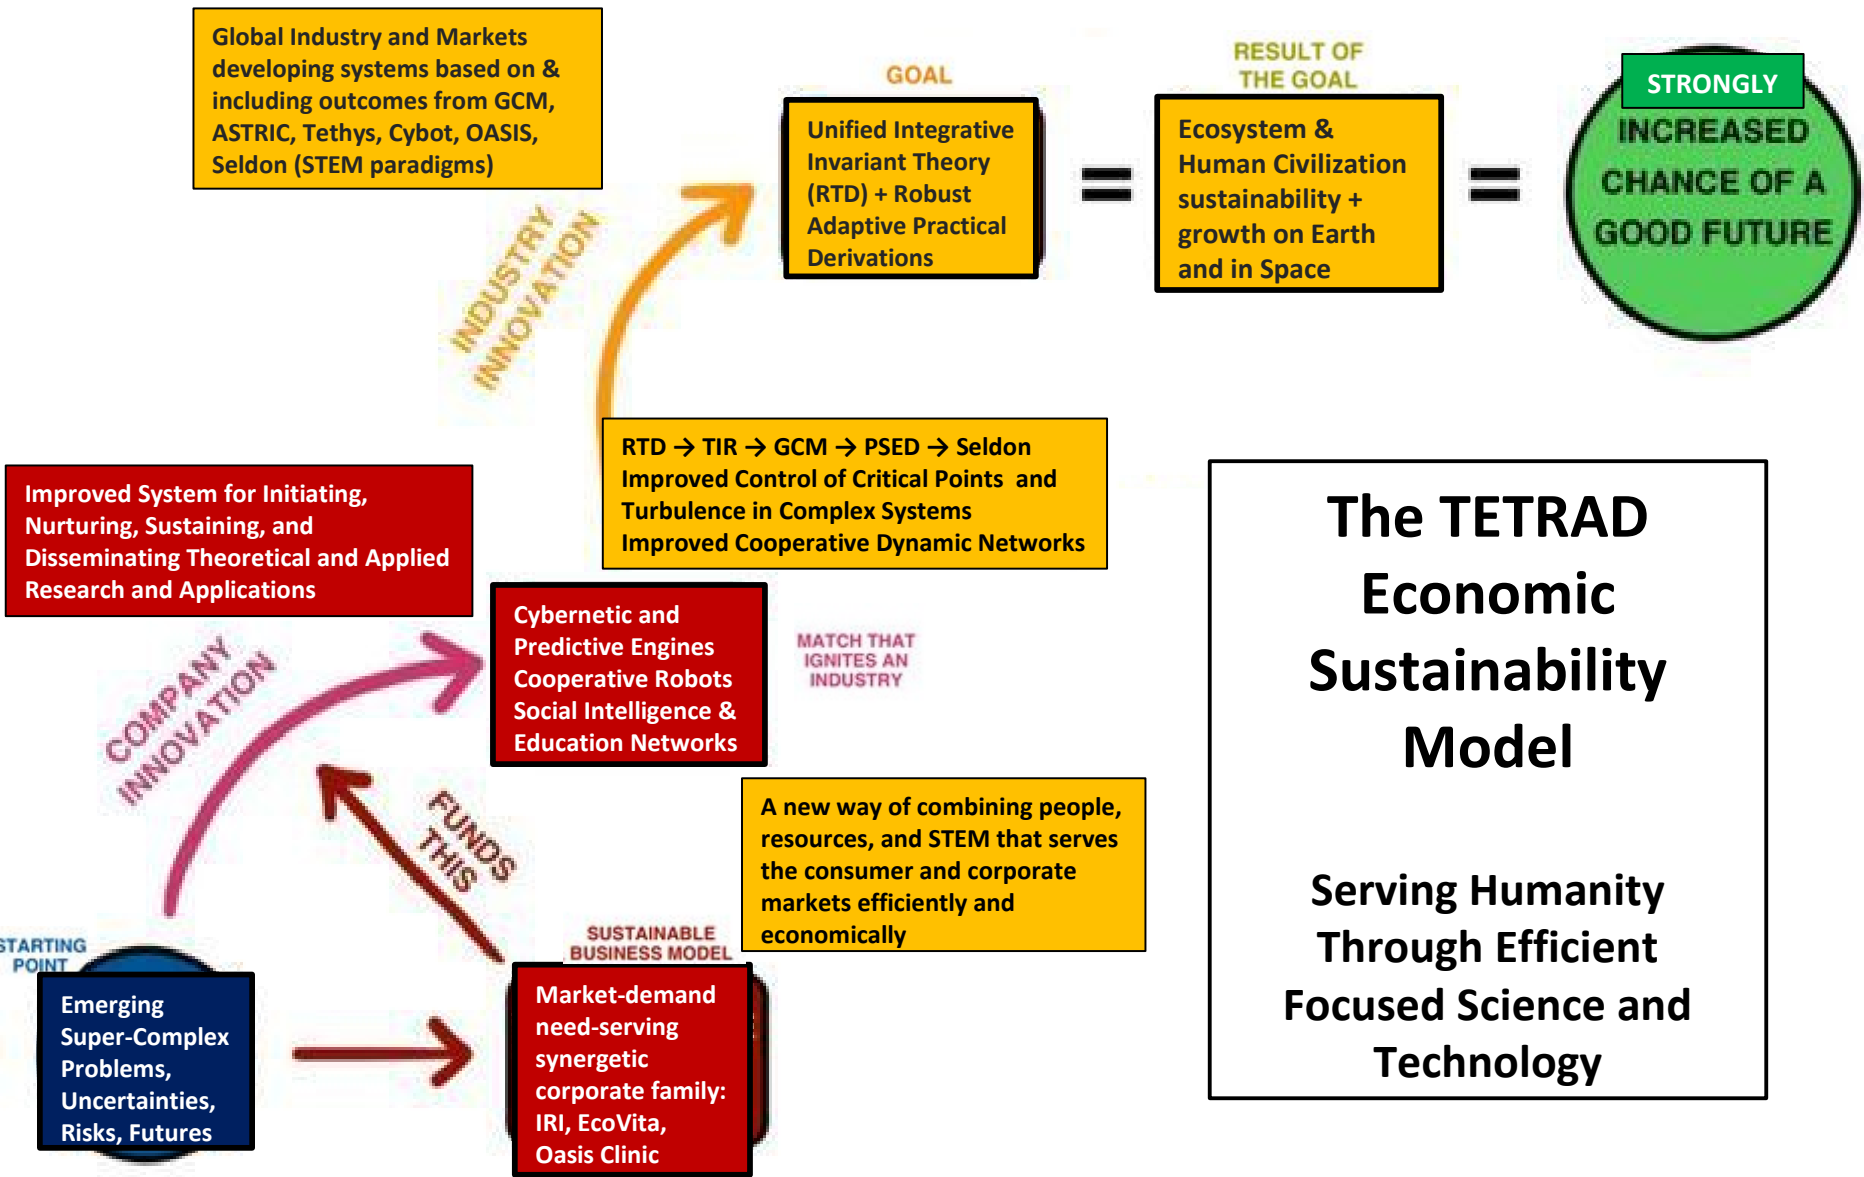

Complexity, Order and Structure in Fundamental Physics, Mathematics and Biology (RTD and NeoPlexus Programs; TERANOD, CYGNUS and GCM Projects)

Cybernetics, Control, and Optimization in Intelligent Engineering (ERA Program; ASTRIC and TETHYS Projects)

Open Autopoietic Social Intelligence Synthesis and Psychosocioeconomic Dynamics (PSED Program; OASIS and SELDON Projects)

Science Education and Socioeconomic Applications (LIBRARIUM Program; MIRNOVA Project)

IRI, EcoVita, and Oasis Clinic produce Visibility, Attention, Recognition, and Sustained Revenues which combine with other sources and forces to maintain the independent creative research “matrix” environment of TETRAD Institute for its Programs and Projects, and together all serve to provide avenues for commercial and personal acquisition, education and uses for the STEM outcomes.
